

BPA Energy Efficiency Weekly Announcement, October 6, 2016

Events

Brown Bag: Distributed Energy Resources -

Join Stephanie Vasquez, BPA Distributed Energy Resources (DER) project manager, October 20 for a brownbag presentation and discussion about distributed energy resources efforts at BPA, with BPA utility customers, and the industry in general...[More](#)

Distributed Energy Resources Utility Cross-Share October 25 -

Bonneville's (DER) team invites utility partners to share their experiences and discuss their interest in exploring DER, October 25 in Pasco, Wash. Some utilities in the Northwest have vast experience in this area, and there are many more who are asking themselves whether resources like demand response or battery storage may help them manage their distribution grids more efficiently and effectively...[More](#)

Learn all about Momentum Savings in the latest Conduit ED series, starting today! -

The spotlight is on Momentum Savings so each week Conduit ED will address a different market segment, from HVAC to Standards to Lighting. The research that BPA and other organizations are doing then helps everyone better understand what's happening in those markets so we can tailor our programs to get even more energy efficiency in our region. Look for a general overview along with more information for those of you who want to do a deeper dive into that week's subject matter.

Conduit ED is inspired by the idea that every energy efficiency professional working in the Northwest can be empowered by a deeper understanding of the fundamentals of energy efficiency. Visit www.conduitnw.org to sign up.

Save the Date: BPA Utility Round Tables -

The recent Efficiency Exchange offered an excellent opportunity to interact in person, but smaller regional gatherings provide a unique chance to discuss more localized issues. To help bolster this effort BPA is organizing a series of regional utility round tables to be

conducted in the later summer and early fall in five different Northwest regions. Each meeting will feature informative presentations and provide an open forum for discussions on program development.

Specific agendas and schedules for these round tables are still being finalized: you can expect more details to follow. If you have questions about these meetings or suggestions for content, please contact your Energy Efficiency Representative (EER)....[More](#)

Efficiency Exchange 2017: Call for Ideas! Deadline is October 31 -

It's that time again - we're planning Efficiency Exchange 2017, and we want to hear from you!

Efficiency Exchange (EFX) is the Northwest's premier energy efficiency networking and learning conference. Attendees from public and private utilities, consulting and research firms, nonprofit organizations and government will come together to learn and connect. The Efficiency Exchange conference is coming to the Oregon Convention Center in Portland, OR. "Energy Efficiency in a Changing Environment" has been selected as the 2017 conference theme.

Energy efficiency professionals from diverse organizations are invited to [submit topics](#) for breakout sessions, as well as ideas for speakers and topics for opening/closing sessions for the 2017 event. Deadline for submission is Oct. 31, 2016.

General

October 2016-17 Implementation Manual Now Final -

BPA has the October 2016-2017 annual Implementation Manual and it has been published on the BPA.gov [website](#).
